- Maximum Power
- Find Information Fast
- Use Dashboards, Layouts and Filters to view and share mission critical information with district staff
- Accessible anywhere an Internet connection is available

Updated User Interface and Navigation - Perform actions quicker and more efficiently while optimizing the screen space available for viewing your data and maps.

Visualize and Display Concise Data

Personalize your dashboard with views of just the information you want to see at a moment's notice, or to track and monitor specific elements of your operation.

- Select from views of students, trips, field trips, vehicles, and staff, or incorporate views of other Transfinder products on one visual display.

- Make sure you are on schedule for school opening by tracking vital statistics including student geocode and trip assignment percentages.

Information at Your Fingertips

Analyze department productivity and outstanding work. Quickly see field trip statuses and view trip activity for all schools and districts to verify you are meeting your transportation deadlines.

View your district map and see your full fleet and where they should be at all times, based on your planned routing. In one view, see their overlap and travel efficiency.

In addition, display at what percentage your buses are filled, and how many students are currently unassigned.

Introducing Right Click Menu (RCM) – Right click on any record in Viewfinder and get a whole new user experience in a browser solution. Right click to get useful functions and options to save steps and valuable time.

Your District's Custom View into its Daily Transportation Information!

Schedule and Manage Reports

Save time and energy by scheduling routine reports to run automatically on the days and times you specify, and have them emailed to the personnel who need them.

Scheduled reports will change your world and will streamline how you receive and share information.

Ensure Your Operation Runs Smoothly and Safely

View known hazards, predator areas, flood or eligibility zones on the map to identify all vehicles, students, stops and trips affected.
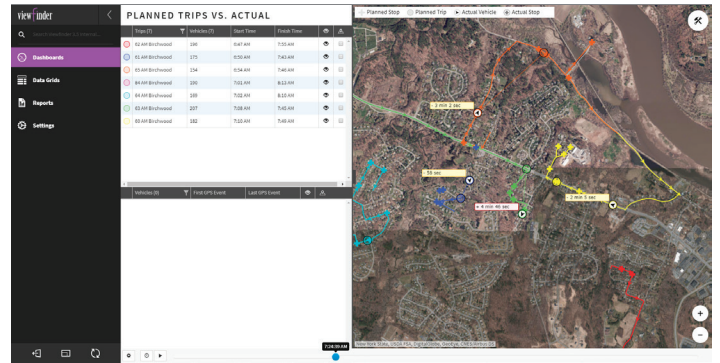

Share Information with Stakeholders

Give administration access to glimpse how your operation is running and share progress reports with administrative personnel to give them a better understanding of the day-to-day operations and to justify budget decisions.
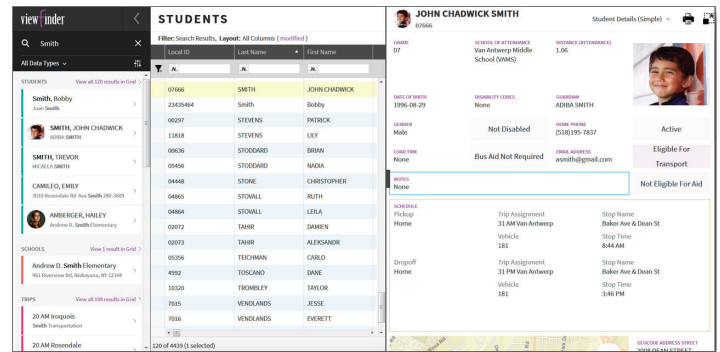

A True Companion Tool

Run Viewfinder side-by-side with Routefinder PLUS or Routefinder Pro and use Viewfinder to find your answers quickly without closing your routes in Routefinder!
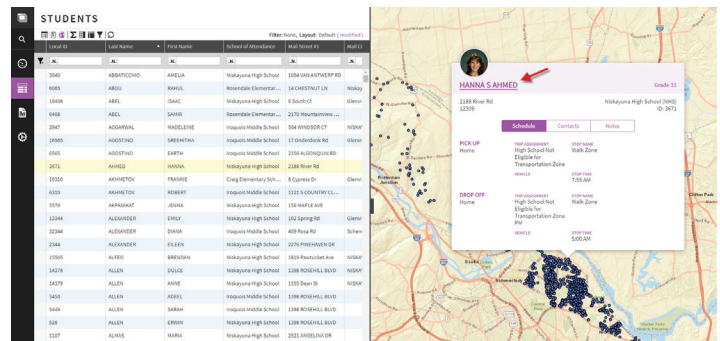

With unlimited users, Principals, Administrators and other district staff can quickly and easily view transportation information in Viewfinder.

View on a map if your vehicles are early, on-time or late based on planned vs. actual time and location differences.

New **Quickfinder** search feature allows users to search and find information amazingly fast. When you need to find information in a hurry to provide district staff answers, Quickfinder lives up to its name.

Show students by grade, by stop time or other student information in a map or grid view.
