

It's time to get the PRO Team working for YOU!

Back to School
ARE YOU READY?

Transfinder's Professional Services Consultants are ready to work with your team to ensure everything is in place for your first day of school this fall.

The Back-to-School Pro Services Package:

A comprehensive customized package designed for your school district's transportation needs going into the **2023-2024 school year**. Start off with a project timeline built around your school district's calendar. Work with a dedicated Transfinder consultant to identify changes that need to be made, clean up and import new school year data, review existing routes and communicate updates to parents and guardians. You may even pick up some new tips and tricks along the way!

What's Included:

- **Single Point of Contact** - Your team will work with a dedicated Transfinder Professional Services Consultant from start to finish during this project.
- **Project Timeline** - Together we will prioritize, plan, and focus on the milestones identified to be ready for the fall.
- **Consulting** - Dedicated one-on-one sessions that can be scheduled at times that work best for you.
- **Data Clean Up** - Review and modify existing data sources—do your hybrid routes and data sources need to be removed, archived, rolled forward? Maybe a combo of all three? We can help with any and all of these actions—as well as work with you to plan for the unknown.
- **Communications Planning** - How do you share updates with parents, guardians and students? Maximize the tools found in your Transfinder solutions to get information to your community early and often.
- **Summary Report** - Transfinder will provide a detailed report with changes that have been implemented.

What else should I know?

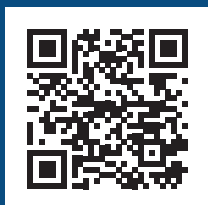

The **Transfinder Community** is an online resource that includes guides, videos and on-demand courses covering tools and topics that will assist you with planning for the new year.

Transfinder Community and **Transfinder University Anytime Courses** are free resources for our clients and can be accessed from your phone or tablet... anytime!
